Every day, Girl Scouts of the Jersey Shore works to provide educational, innovative and relevant programs for girls. A portion of every program is underwritten by your Council. When you support Girl Scouts you are making an investment in our girls!

- Girl Scouts understands the vital connection between girls’ development and their future success and offers a unique leadership experience unlike any other.

- Girl Scouts is committed to increasing girls’ involvement in science, technology, engineering and math (STEM) and ensuring that every girl has opportunities to take the lead through hands-on “learning by doing” in a girl-focused, girl-led environment.

- Girl Scouts gives girls a place to be who SHE wants to be.
