

**Girl Scouts of the Jersey Shore**  
**Virtual Badge Breaks: Outdoor Takeover**  
**Nature Walk**

**Let's get outside, get active, and get creatively inspired by nature!**

With an adult, take a nature walk in your neighborhood or backyard. Be sure to stay on the sidewalk or path, keep off of flower beds or delicate landscapes, and respect your neighbor's yards. While on the walk, try any of the following three things to get creatively inspired.

Be sure to share with us your discoveries and creations using the hashtag **#ThinkOutside** or via the [photo submission page](#) on our website for other Girl Scouts to follow along.

**Supplies Needed:**

- Outdoor space to walk (like your backyard, or neighborhood)
- Notebook or sheet of paper
- Crayons, markers, or colored pencils

**Daisy: Color Match**

1. Identify what colors you are wearing.
2. How many of these colors can you find in nature?
3. See how many matching colors you can find on your nature walk!

### **Brownie: Sensory Walk**

1. Write or draw pictures of what you see, feel, hear and smell outside.
2. Ask questions like:
  - Is it sunny, or cool?
  - Can you smell pine needles or damp soil?
  - Can you hear the wind?
  - Does the air have a taste if you stick out your tongue?

### **Junior: Creative Critters**

1. During your nature walk, write notes or draw pictures of the animals you see, like dogs, squirrels, or birds. You may need to stop and listen to the animal noises you hear, try and identify what you hear.
2. Check out the different colors, textures, and body parts you see, and how they help that animal stay alive.
3. When back home, create your own animal art piece, inventing a new kind of critter.
4. Ask what features this new animal has that would help it thrive in nature.
