Adapting to a New Norm

Dear Girl Scout Family,

In these uncertain times, our Girl Scout grit is shining bright. Our girls continue to find new ways to put their go-getter, innovator, risk-taker and leadership qualities into action as we adapt to living with COVID-19.

This fall's Spooktacular event last weekend at Camp Sacajawea is a great example of how our girls persevere. Following COVID-safety measures, they figured out how to host a fun and very spooky outdoor gathering attended by 1,000 Girl Scouts and their families and friends.

We're also glad to see girls participating in the [Fall Product Program](#), sharpening their entrepreneurial skills as they learn how to market online in the pandemic. As we navigate through this health crisis together, we are working hard to ensure your girl can access the Girl Scout experience and continue to thrive and progress toward earning badges.

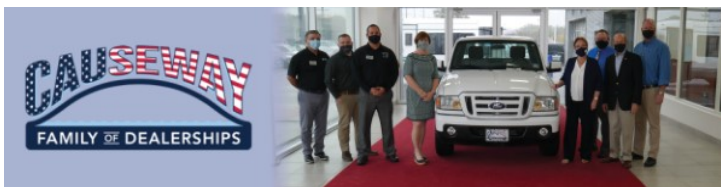

With our expanded [Program On Demand](#), you can visit our website and select from a menu of exciting online and in-person programs for all levels, from archery and canoeing to automotive design and lots more. Our team will follow up with you on preferred dates.

Whether your girl prefers to stay connected online or in-person, we're here to support her and help her grow in courage, confidence and character.

We're here for all girls. If you know a girl who would benefit from our leadership program, please encourage her [join today](#). We can be reached at 800-785-2090.

Regards,

Eileen M. Higgins
Chief Executive Officer
Girl Scouts of the Jersey Shore

Thank You to our Community Partners for their continued support!

Thank You, Causeway Family of Dealerships

Recently, the Causeway Family of Dealerships donated a pre-owned Ford Ranger pick-up truck to our council. The vehicle will be used at Camp Amity Acres in Waretown to transport camp supplies, building materials and waterfront equipment.

Thank You, OceanFirst Foundation

The OceanFirst Foundation presented a check in the amount of \$5,000 to fund additional audio and visual equipment for girl programming. The new technology will allow us to produce more technically efficient programs and to expand our reach and our membership.
