

NEW for 2026 Fall Product Program

Product Program permission slips (paper and electronic) have been discontinued.

- M2 delivery tickets include built-in permission and financial responsibility language that will replace all previous parent permission forms.
- Troops are responsible for ensuring that caregivers sign all delivery tickets and must keep these documents until the program has concluded and all applicable parent nut/candy balances have been paid to the troop.

Streamlined Fall Product Program rewards structure to make earning rewards easier than ever!

- Our NEW simplified Fall Product Program lineup includes just three product lines of **nuts/candy, magazines, and Bark Boxes**.
- All items sold across these product lines will be combined towards one cumulative total for earning rewards.

Troop Proceeds Options
